Met Office Aberdeen Meteorologist's View
After some windy weather recently on the tops, unusually light winds on Monday. Gales returning on Tuesday unfortunately.

Forecast for Tuesday 25 Aug 2020
Weather: Quite a change from Mondays quiet weather. It will start off dry but cloudy with rain extending northwards during the morning and into the afternoon. Rain becoming most persistent towards the Trossachs but lighter, patchy over Glencoe, Lochaber and Mull. Strengthening easterly winds with gales developing over many higher ridges and summits where it will feel cold.

Maximum wind: Northeasterly winds strengthening during morning to 40mph over higher ridges and summits, gusts 60mph. Winds may strengthen further in the afternoon with gusts 70mph possible on the tops by evening.

Chance of cloud free mountain/hill tops above 800m: 80% during morning reducing 40% in afternoon. Occasional cloud cover about 700M becoming extensive and coming well down the hills across Trossachs in afternoon.

Visibility: Good towards north and west of area. Becoming poor further east as persistent rain sets in.

Temperature: **Glens:** Plus 7 Celsius rising to 15 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Above the tops.
